

**Vector Foiltec** invented and pioneered the use of Texlon® ETFE for architecture, and is the only company in the world whose core business is ETFE. As market leaders, our team of experts have been responsible for all major technical innovations in the field and realizes roofs and facades worldwide - such as on prestigious stadia, exquisite office buildings, large-scale zoos etc.

To support our growth in China, we are looking for an experienced controller to the earliest convenience to work full time at our branch in **Beijing/Shunyi, China**, as

## BRANCH CONTROLLER, BEIJING

### Your responsibilities

- Establishing an interface between our German headquarters in Bremen and the Beijing/Shunyi branch
- Controlling of exciting construction projects in Asia
- Collaboration with our sales team, project managers and the Finance Department
- Maintaining our sales data in Salesforce, as well as the production and financial data in Excel Tools
- Expanding our production controlling

### Your profile

- You are reliable, have an eye for detail and enjoy numbers
- You have a university degree with a business background or comparable qualification
- You are fluent in English, Chinese and German
- You have work experience in China or with Chinese employees
- You are very familiar with the Chinese mentality

- You have very good knowledge of MS Office, especially in Excel
- Experience in Salesforce or other CRM systems is a plus

### We offer

- A job in a prestigious and globally operating company
- International and intercultural team work
- A versatile and challenging task
- A pleasant and team-oriented work environment

---

If this sounds like your next challenge, we are looking forward to receiving your application documents including desired financial compensation to:
