

WORK WITH US

JUNIOR ARCHITECT / 3D VISUALIZER

Vector Foiltec is the world market leader for transparent ETFE constructions and realizes innovative roofs and facades worldwide. We are constantly expanding our portfolio with technically complex, national and international Texlon® ETFE projects.

Due to the strong growth of our company, we are looking for a Junior Architect / 3D Visualizer to strengthen our Concept Department in Bremen as soon as possible.

Your Key Tasks:

- Working in the Concept Department focusing on the first phase of creating the project
- Preparing a 3D architectural environment showing our project in the context
- Creation of visualizations and renderings
- Postproduction in the process of visualization
- Coordination with Global Sales Team

Your Profile Includes:

- Bachelor's degree in Architecture or a recent graduate master's degree in architecture or related fields
- Showing a strong imagination in 3D dimensions and being passionate about visualizing projects
- Knowledge of AutoCAD, Lumion, and Photoshop
- Experience with 3D programs like Rhino/Revit would be advantageous
- Knowledge of English. Basic German knowledge will be appreciated.
- You are a team player and act in a structured and self-reliant manner
- You count reliability and the desire to improve among your strengths

We Offer:

- A varied, international working environment
- An exciting job in the field of architectural application of ETFE foil systems
- A long-term perspective in a globally operating company
- Trust-based working hours
- 30 days of vacation per year
- A corporate culture that promotes professional and personal development
- Texlon® Academy: in-house training
- Company fitness with EGYM Wellpass
